Hi Dianne,

Yesterday, the Region V State Plan Review Team, consisting of me, Gay Gilbert and Maggie Ewell of the ETA National Office, and Nick Lalpui of the Dallas Regional Office, had our conference call to reach a consensus on the recommendations for approval of the WI State Plan. Attached is the list of additional information we agreed upon as required from the State for final plan approval by the Assistant Secretary. We would like to receive this information by Friday, June 17, 2005. We realize this is a very short time frame. However, if you are able to submit the information by that date, barring any unanticipated issues, the Assistant Secretary would likely approve the plan on a final basis without any further required documentation from the State.

If you are only able to submit part of the required information that would be acceptable also. ETA will issue a letter and accept the remaining information within 45 days.

Please use the following format to submit the additional information:

In order that the current pagination of the plan is not disrupted, please use a separate page for revisions to items in the main body of the plan and number the separate page with the same page number followed by a., b., c., etc. For example, the first item listed refers to page 15 of the Plan. Input the additional information on a separate page and number that page 15a. This will help to track the revisions.

For additional information that is an attachment to the plan, just use the next available letter to label it (Attachment Y) and continue from there.

Thanks Dianne
